

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

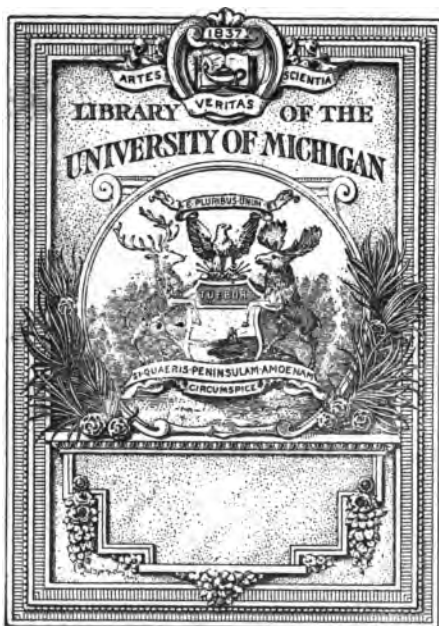

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REPORT.

STATE OF ILLINOIS, SECRETARY'S OFFICE,
SPRINGFIELD, October 1, 1882.

To his Excellency SHELBY M. CULLOM, Governor:

I have the honor to present herewith the Biennial Report, as required by law to be made by the Secretary of State.

The law on this subject is as follows:

It shall be the duty of the Secretary of State to make out and present to the Governor, at least ten days before each regular session of the General Assembly, a report, showing the amount of all fees received by him and paid over to the Treasurer, the expenditures of his office, the contracts let by the State for fuel, stationery and printing paper, and for copying, printing, binding and distributing the laws and journals, and for all other printing ordered by the General Assembly, and stating particularly the manner in which the same has been fulfilled; the amount of fuel, printing paper and stationery purchased, and the amount thereof used by the several offices and otherwise, and the amount thereof remaining on hand, giving in each case a particular itemized account, and when paper has been furnished the State printer, a statement of each settlement with him for paper furnished him, and an account of the manner of the expenditure of each appropriation expended by him, and such general account of the business of his office as may be necessary for the information of the General Assembly.

I have endeavored to observe the specific requirements of the law, and to follow as near as practicable the order of subjects therein named, in making up this report.

I desire upon the outset, and before proceeding with the business of this report, to acknowledge my obligations to my predecessor in office, Col. Geo. H. Harlow, who had filled the office so long and acceptably, for his cordiality and kindness in assisting me in becoming familiar with the duties of my new position.

I am unable to give the final settlement with the State printer and State binder, H. W. Rokker, as some work in hand is still unfinished, and the accounts cannot be closed until the contracts are completed. The amount of money paid on account, however, is given. On binding account he was paid on bills presented and included herein. On printing account he was paid on estimates furnished by the printer expert, as provided by law.

The appropriations made by the 32d General Assembly for various purposes, the accounts of which are kept in this department, will be sufficient to meet all requirements for the time they were intended to cover, and no deficiency will be asked of the 33d General Assembly, unless something now unforeseen should occur.

It has been customary for each General Assembly, on convening, to appropriate fifteen thousand dollars, to meet the incidental expenses of its own session. Such an amount will not be necessary for the next meeting, as almost everything purchased by the last is on hand still, and I would respectfully recommend five thousand dollars for this purpose.

Out of the fifteen thousand dollar appropriation made for the incidental expenses, etc., of the last session, three thousand and fifteen dollars lapsed into the State treasury, after meeting the expense of the steam passenger elevator and deficiencies in several of the regular appropriations.

There was a deficiency bill passed in March, 1881, appropriating seven thousand dollars for the heating department, twenty-nine hundred dollars of which was not expended, and lapsed into the treasury.

There is remaining on hand of the appropriation of \$15,000 for one year's supply of printing paper and stationery, eight thousand four hundred and thirty-eight dollars; a sum almost sufficient, if not entirely so, to purchase the supplies needed for the two years, without drawing upon the second fifteen thousand dollars at all.

Thirty thousand dollars was appropriated to meet the expense of two years' public printing. This sum was not sufficient to pay for work done under the contract which expired October 1st, 1882—it requiring, according to estimate of printer expert, when completed, thirty-seven thousand dollars, but the deficiency appropriation, passed in March, 1881, for that purpose, with the biennial appropriation, is sufficient until the regular appropriation becomes available.

Under the present contract, which is estimated to be twenty-five per cent. less than the one just expired, I am of the opinion that an appropriation of fifteen thousand dollars per annum will be sufficient to pay for the printing for the next two years.

The regular biennial appropriation for public binding was \$15,000 per annum for two years from July 1st, 1881. Of the first year's appropriation there was remaining unexpended at the date of this report seven thousand nine hundred and fourteen dollars. This is not a fair index of the cost for two years, as the larger part of the work is done in the second year. Twenty-one thousand dollars, however, will be ample to pay for the binding for the two years just closed.

The contract for copying the laws and journals was let at so low a figure, one cent per hundred words, that there will be left, July 1st, 1883, of the twelve hundred dollars appropriated for this purpose, six hundred dollars. Three hundred and twenty-seven dollars of the twenty-five hundred dollars appropriated for repairs of the heating department was not used.

In my judgment the expense to the State for the following purposes under the present contracts will be—per annum—

For Printing.....	\$15,000
“ Binding.....	10,000
“ Heating.....	10,000
“ Printing Paper and Stationery.....	15,000
“ Lighting.....	4,000

INDEX DEPARTMENT.

The following is an abstract of account for this department for the period covered by this report :

<i>To—</i>	<i>Dr.</i>	
Amount on hand January 11, 1881.....	\$1,416 68	
Appropriation for 1881.....	3,000 00	
Appropriation for 1882.....	3,000 00	\$7,416 68
<hr/>		
<i>By—</i>	<i>Cr.</i>	
Salaries to October 1st, 1882.....	\$5,166 68	
Balance unexpended, 1882.....	2,250 00	
October 1, 1882, to balance, unexpended and available.....		\$7,416 68
		2,250 00

The appropriation asked for, for the Index department, from the 32d General Assembly, was accompanied with the assurance that the work then in hand and in progress, viz: “the indexing of the laws and resolutions,” would be completed to date, with the sum then asked to be appropriated. I am happy to state that I will be able to more than make my word good in that respect, and that all the laws will be classified, arranged and indexed in good shape before the appropriation is exhausted, leaving a balance to apply on other much needed work in the department.

This will bring the indices to the laws complete up to and including the session of 1881. The session laws of 1883 and subsequent sessions will be indexed and form part of the index, as they occur.

I desire to call your attention to a fact, of which I was not myself cognizant two years ago, and the attention of the Legislature has not, I think, been directed to it. I refer to the fact that the published volumes of the laws and the journals of both houses are indexed in the index department of this office. Previous to the year 1879 this work was performed by persons temporarily employed for that purpose, and the expense paid from another fund. A comparison of the indices to the laws and journals, prepared in the department, with those made by persons temporarily employed, will be sufficient proof of the wisdom of the change. The law requires the copying of the laws, journals and resolutions to be done in the State House, under the personal supervision of the Secretary of State, and such copies to be carefully compared with the originals in his office before being printed. The character of this work requires the care and attention of expert ability, and at the same

time reliable dependence must be felt in the person charged with the duty. The experiment of having this work done by irresponsible persons, temporarily employed for the purpose, satisfied me that it was unsafe, against good public policy, and attended with too much anxiety for its proper performance. As a measure of safety, and to insure reliability in the work, I determined, therefore, to place the whole matter in charge of the chief clerk of the index department, whose experience and acquirements specially qualify him to attend properly to this important duty. The indexing, supervision of printing, and comparing the copy prepared by the contractor for copying, increases the work of the index department about twenty-five per cent.; but it seemed to me unavoidable, both as a matter of security and good service, that it should be placed in some responsible hands. I am not inclined to overestimate the services of this department, but two years' experience in the office of Secretary of State has led me to fully appreciate its importance, the amount of work accomplished, and the dependence of this office for the prompt despatch of the public business upon reliable indices to its files and records.

FUTURE WORK.

When the indices to the laws are completed, no time should be lost in preparing an index to the Executive Records. These important official records, to which reference is had almost daily, are practically without an index of reference of any kind, and whether any desired entry is found, in a search through the score and more of record books for it, depends upon good luck or accident. In addition to the Executive Records, I may mention that the official copies of the journals of the General Assembly since the organization of the Territorial and State governments have absolutely no indices at all. A few of the earlier published volumes are indexed, but most of them have neither index nor table of contents. The indices to those that are indexed, are so imperfect, as to be in many cases practically worthless. These official records should be indexed with as little delay as possible. The necessity for it cannot be questioned. The discouraging prospect of attempting to find what action was taken on a particular subject in a record of many hundred pages, and to certify to its correctness, without an index of reference, will be appreciated by any one who will give the matter a moment's thought. I have cited these two cases as examples, and pointed out the condition of these records, that my reasons for recommending a continuation of the appropriation for the Index department might appear well founded; and I should fail in my duty if I did not urge that the necessary appropriations be made to continue a work, so necessary, in my judgment, to the convenience and benefit of the people in doing business with this office.

PRINTING. &

There has been a larger amount of printing done during the fiscal year just closed than under any previous contract, more than 2,800 orders having been issued, nearly 400 more than were issued in 1879-'80. As the State grows in population and material wealth, business in the public offices increases, new offices are created by law, reports to the General Assembly multiply and increase in bulk and the demand for current office printing is augmented.

While the contractor during the past two years has been unusually prompt in filling orders, and has in the main executed his work with a degree of accuracy and mechanical skill not attained in the past, nevertheless the facilities afforded by the best equipped printing offices in any of our cities (Chicago excepted) are wholly inadequate to meet the demands of the State during the months intervening the close of the fiscal year and the assembling of the Legislature.

The present printing law is crude, incomplete and ambiguous, and so inflexible as to give rise to much inconvenience and strained construction. Some of its provisions are so contradictory and uncertain as to make it next to impossible for those charged with its execution to intelligently agree as to its meaning. A well considered comprehensive law governing the public printing and binding in place of the present statute, is a necessity.

This matter is submitted to the General Assembly as a problem deserving the earnest and enlightened consideration of the printing committees.

The following detailed statement shows the cost of all printing done under the contracts of 1881-2, payable out of general appropriation for public printing:

† Cost restricted by joint resolution to 35 cents per copy.

* Report Board of Health, 1881, in press—probable cost \$500 or \$600.

GEOLOGICAL REPORTS.

Under the law providing for the republication of three volumes of the reports of the Geological Survey, and a new volume, No. 7 of the series, passed by the 32d General Assembly, an appropriation of \$5,000 was made to pay for the printing and binding. Three volumes have been printed and bound, and paid for out of the appropriation, and a sum amply sufficient to insure the publication of Volume VII remains in the treasury, to be used whenever Prof. Worthen, under whose supervision the entire work is entrusted by the law, is ready with the copy and engravings. The volume will doubtless be ready for distribution early in the year. The printing has been well done, and the books substantially bound. Vol. VII will be printed and bound in a style uniform with the original series.

RECORD OF THE SERVICES OF ILLINOIS SOLDIERS IN THE BLACK HAWK AND MEXICAN WARS.

A clause was inserted in the general appropriation bill, by the 32d General Assembly, giving to the Adjutant General \$1500 to pay for the preparation, printing and binding of a record of the services of Illinois soldiers in the Black Hawk and Mexican wars. Two thousand copies were printed and bound at a cost of \$1207.50, and delivered to the Adjutant General. The book contains an appendix containing the names of those Illinoisans who participated in the war of 1812-18; also, much matter of historic interest.

FEES RECEIVED.

In the account of fees received will be found an itemized statement, showing the name of each corporation to which license to organize or final papers were issued, the names of all persons, commissioned from this office, requisitions and warrants issued for fugitives from justice, and other official documents upon which fees were paid.

STATE CONTRACTS WHICH EXPIRED SEPTEMBER 30, 1882.

Printing, six classes; binding, paper and stationery, three classes. Fuel, copying laws, journals, etc., and distributing of laws, journals, etc.

PRINTING.

First Class.—The work required to be done in this class is the printing (in bill form) of bills, resolutions and other documents.

The contractor for this work was the Springfield Journal Company.

The cost of the work performed under this contract was \$1,677.91, for which a settlement in full has been made.

SECOND, THIRD, FOURTH, FIFTH AND SIXTH CLASSES.

The work required to be done in these classes is as follows:

Second Class.—The printing (in book or pamphlet form) of reports, communications and other documents, and of the volumes of reports.

Third Class.—The printing of the Journals of the Senate and House of Representatives.

Fourth Class.—The printing of the volume of laws with the joint resolutions which shall be in said volume.

Fifth Class.—The printing, stitching, ruling, lining, indexing and binding of election registers.

Sixth Class.—All printing not included in First, Second, Third, Fourth, and Fifth classes.

The contractor for the work of these five classes was H. W. Rokker. Final settlement has not yet been made with him, and only an estimate can now be given, which is placed at \$35,000.

He has received up to the present time \$33,082.23, as part payment.

RECAPITULATION—Printing.

Springfield Journal Co.....	\$1,677 91
H. W. Rokker (estimated).....	35,000 00
<hr/>	
Total cost printing for two years ending September 30, 1882.....	\$36,677 91

BINDING.

The contractor for the State binding was H. W. Rokker.

Final settlement has not yet been made with him, and only an estimate can be given, which is placed at \$21,000. He has received up to the present time \$18,753.66, as part payment.

Total.....	<hr/> \$27,809 24

DISTRIBUTION OF LAWS, JOURNALS, ETC.

Contractor, A. H. Magie, at the rate of \$215 per year, amounting to \$430, for which a settlement in full has been made.

COPYING LAWS, JOURNALS, ETC.

Contractor, A. H. Magie. The work performed under this contract amounted to \$513.06, for which a settlement in full has been made.

FUEL.

Contractor, P. W. Harts.

Five thousand nine hundred and eighty-three tons of bituminous coal was furnished under this contract at \$1.74 per ton, amounting to \$10,409.92.

There is on hand at this date 160 tons of coal.

GENERAL RECAPITULATION.

Printing (estimated).....	\$86,677 91
Binding (estimated).....	21,000 00
Paper and stationery.....	27,809 24
Distributing laws, journals, etc.....	430 00
Copying laws, journals, etc.....	513 06
Fuel and heating.....	10,409 92

The work done and materials furnished by each of the contractors has been satisfactory, with the exception that the first car-load of 60-lb. book paper received by the present Commissioners of State Contracts was rejected, it not being up to sample.

NEW STATE CONTRACTS.

Pursuant to law and in accordance with the advertisement for "Proposals for State Contracts" published in a daily in each of the cities of Chicago, Springfield, Peoria, Quincy and Cairo, the Commissioners of State Contracts did, on Tuesday, the 5th day of September, 1882, in the presence of the Governor, proceed to open the bids that had been filed for the various State contracts, and to make the awards therefor as follows:

PRINTING.

There were seven bids received for doing the State printing, which were filed by the following persons: Fred Gehring, E. L. Merritt, Smith, Clendenin & Rees, Springfield Journal Company, Thomas S. Pinckard, and Enoch Paine.

AWARDS.

First Class.—The execution of the work of this class was awarded to the Springfield Journal Company, it being the lowest bidder, at the following prices. For composition per 1,000 ems: figure 16 cents; rule and figure, 16 cents; plain, 16 cents. Press work per 100 impressions, 10 cents.

The executing of the work of the second, third and fourth classes was awarded to Thomas S. Pinckard, he being the lowest bidder therefor, at the following prices:

Second Class.—For composition per 1000 ems: figure 20 cents; rule and figure, 33½ cents; plain, 25 cents. Press work per 100 impressions, 8½ cents.

Third Class.—For composition per 1000 ems: figure 10 cents; rule and figure, 33½; plain, 25 cents. Press work per 100 impressions, 8½ cents.

Fourth Class.—For composition per 1000 ems: figure, 2 cents; rule and figure, 3 cents; plain, 33½ cents. Press work per 100 impressions, 8½ cents.

Fifth Class.—The contract for executing the work in this class was awarded to H. W. Rokker, he being the lowest bidder, at the following price:

For stitching, ruling, binding, indexing and binding election registers, 3 cents each.

Sixth Class.—The contract for executing the work in this class was awarded the Springfield Journal Company, it being the lowest bidder, at the following prices: For composition per 1000 ems: figure, 30 cents; rule and figure, 20 cents; plain, 12 cents. Press work per 100 impressions, 5 cents.

BINDING.

For executing the binding of the State, three bids were received, filed by the following named persons: Enoch Paine, H. W. Rokker and Springfield Journal Company (on the opening of the bid of the last named party it was found to be incomplete, and it was not considered).

The contract for doing the five classes of binding was awarded to H. W. Rokker, he being the lowest bidder, at the following named prices:

First Class.—1 cent per volume irrespective of the number of pages.

Second Class.—20 cents per volume irrespective of the number of pages.

Third Class.—9 cents per volume irrespective of the number of pages.

Fourth Class.—2 cents per 100 pages aggregate count.

Fifth Class.—1-100 cent per 100 pages aggregate count.

PAPER AND STATIONERY—FOUR CLASSES.

Class 1. Printing paper, 60 lbs. per ream.—For the furnishing of this paper, bids were received from Bradner, Smith & Co., P. W. Harts, Geo. H. Taylor & Co., and J. W. Butler Paper Co. The contract for this class was awarded to J. W. Butler Paper Co., it being the lowest bidder, at \$4.79 per ream.

Class 2. Paper for Blanks, Blank Books, etc.—For the furnishing the paper called for in this class, bids were received from Culver, Page, Hoyne & Co., Bradner Smith & Co., P. W. Harts, Geo. H. Taylor & Co., and J. W. Butler Paper Co.

The contract for this class was awarded to The Geo. H. Taylor Co., it being the lowest bidder in the aggregate.

Class 3. Stationery and other Paper.—For the furnishing of the articles called for in this class, bids were received from Culver, Page, Hoyne & Co. and The J. M. W. Jones Stationery and Printing Co. (Bids were also filed by Frank Simmons and P. W. Harts, which were not complete and not considered.)

The contract for this class was awarded to Culver, Page, Hoyne & Co., it being the lowest bidder in the aggregate.

Class 4. Official Envelopes.—For the furnishing of the envelopes called in this class, bids were received from August Gast & Co., Culver, Page, Hoyne & Co., The J. M. W. Jones Stationery and Printing Co., Western Bank Note and Engraving Company, and P. W. Harts.

The contract for this class was awarded to August Gast & Co., they being the lowest bidder in the aggregate.

COPYING LAWS, JOURNALS, ETC.

For the copying of the laws, journals, etc., bids were received from A. D. Sayward, A. H. Magie and W. P. Emery.

This contract was awarded to A. D. Sayward at one cent per hundred words, hers being the lowest bid offered.

DISTRIBUTION OF LAWS, JOURNALS, ETC.

For the preparing for distribution of the laws, journals, etc., bids were received from P. W. Harts, James Curtis and A. H. Magie.

The bids of P. W. Harts and A. H. Magie being the lowest offered, and for the same amount, to-wit: \$200 per annum, it was decided by lot in favor of P. W. Harts, and the contract awarded to him.

FUEL.

Bids for furnishing bituminous coal for fuel were received from Springfield Co-operative Coal Co., The Wilmington & Springfield Coal Co., P. W. Harts, Capital Coal Co., Speed Butler, Charles H. Hurst, and Dawson, Poley & Co.

This contract was awarded to Speed Butler at \$1.48 per ton, his being the lowest bid offered.

MISCELLANEOUS WORK.

This work consists of the making of pads, ruling of blanks, blank books, etc., and the binding of blank books. For the execution of this work bids were received from Enoch Paine and H. W. Rokker. (A bid was also filed by the Springfield Journal Company, but being incomplete, it was not considered).

The contract for this class was awarded to Enoch Paine, his being the lowest bid in the aggregate.

As soon as the advertisement was published calling for "Proposals for State Contracts," samples were procured, as the law directs, of each kind of paper and of each article of stationery required, for the inspection of bidders. The samples of each kind of paper were bound in book form and properly labelled, and each article of stationery also labelled to correspond with the list as published, in order that bidders should have all the facilities and information necessary in making their bids, and to secure exact justice between the State and successful bidders, in accepting or rejecting goods offered for delivery on contract. The samples are on file in this office, and goods furnished on contract must conform thereto.

AMOUNT OF BONDS REQUIRED.

The Governor and Board of Commissioners of State Contracts fixed the amount of the bonds to be furnished by the several contractors at the following sums:

PRINTING.

First Class.....	\$5,000 00
Second Class.....	10,000 00

APPROPRIATION FOR HEATING.

The expenditures under this head have been largely increased by the use of the passenger elevator, which has been put in since the last report was made from this Department.

A high pressure of steam must be preserved while the elevator is in use, which necessitates an increased consumption of coal.
